

LEFAY RESORTS & RESIDENCES SUSTAINABILITY MANIFESTO

“Exclusivity means doing something no one else has thought of doing, creating something for the few that does everyone good.”

This is the deep sense of responsibility we have always felt towards the areas and communities in which we operate, as well as towards all our employees.

We want to be a reference point for travellers who are aware of the impact of their choices. For this reason, since the foundation of the company, we have begun to progressively integrate sustainability into all our activities, in the hope that our success will always be linked to a wellness holiday experience with low environmental impact and high social value.

This manifesto sets out the principles that underpin our business strategies, which are geared towards a corporate culture of social and environmental responsibility.
